AIRCRAFT APPRAISAL

Analar offers appraisal services for all types of aircraft, from single-engine helicopters to corporate jets.

Our 20 years of experience in aircraft ownership and operation, matched with our comprehensive knowledge of the current market, enable us to provide accurate appraisals of aircraft value, insurance requirements, and regulatory conformity.

Only after we collect and analyze data necessary to compare your aircraft to similar aircraft on the current market do we provide you with a detailed statement of appraisal.

Analar specializes in onsite inspections of aircraft and systems, including a comprehensive review of log books and maintenance records.

Our services are designed to provide you with the objective, expert information necessary to ensure value, safety, and insurance compliance.
